Revised: 1990

Date: 4/15/80

1. As verbally requested of the undersigned on 10 July 1954 a paper on the desirability of establishing a Sub-Committee on Photographic Intelligence at the IAC level has been prepared and is attached hereto.

2. To account for some of the changes in the situation discussed reference is made to the D/CP Memorandum of 21 May in which it was noted that some of the required improvements in the present U. S. photographic intelligence system were already being worked out without formal directives.

3. The conclusions drawn and recommendations offered are based largely on the information gathered during discussions with JCS, Air Force, Navy, and CIA authorities who might be concerned with the subject.
